

## Technical Specifications

Overall length	13.00 mm
Optic diameter	6.00 mm
Haptic angulations	7°
Design	Aspheric Bi convex design with double square edge
Power range	10.00 – 30.00 (0.5D increments) 5.00 – 10.00 and 30.00 - 40.00(1.0D increments)
Material	Hydrophobic Acrylic
Refractive Index	1.483 (@ 35°C)
Y.A.G laser	Compatible
A constant	119.5
Placement	Capsular Bag
CE Approved	

## Hanita Lenses

Hanita Lenses is an Intraocular Lens and contact lenses manufacturer, which is active in the Israeli domestic market and the global market since 1981. Hanita Lenses is a dynamic leading player in the Medical Device Ophthalmic market, utilizing high-end technologies and vast knowledge in the refractive and cataract surgery fields. whose strategy focuses on Innovative R&D.
